

Beethoven on board

>> Beethoven's life and work in Bonn
& Mini German Language Course for Rhine crusaders

Experience the life of Bonn's most popular son Ludwig van Beethoven and learn German basics on your ship passing or stopping in Bonn. This adventure starts with an exciting and entertaining presentation about the life and work of Beethoven, who was born in Bonn and also spend his childhood and youth in the city. Get to know if Goethe and Beethoven used to drink wine together on the Rhine and what these two world-famous artists thought about each other. Hear about the music which connects Beethoven with Bonn while relaxing on a ship, which carries you past the skyline of Bonn on the soft waves of the Rhine and brings you close to the romantic Siebengebirge.

The presentation is combined with a short German language course, which playfully teaches you the most important idioms on board of the ship.

This entertaining programme is offered in English, Spanish, French, Italian, Russian, Mandarin and Arabic.
